Contents of Volume 13 1982

January

3 The use of tracers in water pollution control: G V Evans
11 Marine technologies for the 1990s: J G Ford and L G Georghiou
18 Inductor–converter superconductive magnetic energy storage for electric utility usage: R W Boom and R F Bischke

Conference reports 28 *Book reviews* 33
Talking point 36

March

44 Instrumentation for the measurement of blood flow: C A Greatorex
50 Medical applications of biomaterials: M M Black, R van Noort and P J Drury
57 The physics of radiations used in physiotherapy: B L Diffey and M F Docker
66 Image perception – a key to the brain: R A Weale
70 Medical imaging: R P Parker

Editorial: The role of physics in physiology 43
Conference reports 78 *Book reviews* 82
Talking point 84

May

91 The importance of heat transfer in polymer processing: M F Edwards and D I Ellis
98 The all-mechanical electric car: D W Rabenhorst
105 Government policies towards the telecommunications and computer industries: J Hills
114 The marketing of Prestel: M J Baker and B Witcher

Letters: The management of radioactive wastes 112
Conference reports 123 *Book reviews* 127
Talking point 133

July

139 Inspection, maintenance and repair of North Sea platforms: J V Sharp
146 Electronic speech synthesis: R Linggard
152 Developments in the impact testing of polymers: J M Hodgkinson and J G Williams
159 Photographic emulsions, phototypesetting and colour scanning: D F Horne

Conference reports 165 *Book reviews* 170
Talking point 177

September

183 Research on composite materials at Liverpool University part 1: D Hull
190 Solar electricity – a low power technology: L B Harris
196 Human factors in information technology: K D Eason
202 Physics, fish and food: M Kent and A C Jason
210 The use of computers in optical design: A J Kirkham

Book reviews 217 *Conference reports* 222
Talking point 226

November

233 Neutrons in medicine: R C Lawson and J M A Lenihan
239 Uses of neutrons in engineering and technology: J Walker
249 The commercialisation of university research: R Rothwell
258 Risk analysis and public policies for major hazards: A Irwin, D Smith and R Griffiths
266 Applications of CR-39 nuclear track detector in medicine and technology: D L Henshaw
273 The contribution of aerodynamics to advances in transport aircraft design: A B Haines

Editorial: The neutron 231
Book reviews 281 *Talking point* 285

Phys. Technol., Vol. 13, 1982. Printed in Northern Ireland

Physics in Technology

Index to Volume 13 1982

Subject index

Articles, reports on conferences (*C*), *letters* (*L*) *and editorials* (*E*) *are referenced cyclically by keywords of title*

aerodynamics to advances in transport design, The contribution of 273
aircraft design, The contribution of aerodynamics to advances in transport 273

biomaterials, Medical applications of 50
blood flow, Instrumentation for the measurement of 44

commercialisation of university research, The 249
composite materials at Liverpool University part 1, Research on 183
composites: applications, economics and developments, Advanced (*C*) 124
computer industries, Government policies towards the telecommunications and 105
computers in optical design, The use of 210

display research conf., Eurodisplay '81: 1st European (*C*) 30

electric car, Flywheels: The all-mechanical 98
Electronic speech synthesis 146
Electronics update '81 (*C*) 80
Electro-optics and laser international '82 UK (*C*) 223
energy storage for electric utility usage, Inductor–converter superconductive magnetic 18
engineering and technology, Uses of neutrons in 239

fibre optic gyroscopes and related technologies, 1st conf. on (*C*) 79
Flywheels: The all-mechanical electric car 98
food, Physics, fish and 202
fracture mechanics in design, The use of (*C*) 165

heat transfer in polymer processing, The importance of 91

Image perception – a key to the brain 66
imaging, Medical 70
impact testing of polymers, Developments in the 152
industry need?, What kind of physicist does (*C*) 78

information technology, Human factors 196
Inspection, maintenance and repair of North Sea platforms 139

laser international '82 UK, Electro-optics and (*C*) 223
Laser safety (*C*) 31
Lasers in manufacturing (*C*) 166
Light measurement '81 (*C*) 28

magnetic energy storage for electric utility usage, Inductor–converter superconductive 18
magnetic materials in industrial applications, New (*C*) 125
man–machine systems, Int. conf. on (*C*) 224
Marine technologies for the 1990s 11
Marine: Technologies in the 1990s: the sea (*C*) 167
materials at Liverpool University part 1, Research on composite 183
measurement, 9th IMEKO World Congress: Technological and methodological advances in (*C*) 222
mechanics in design, The use of fracture (*C*) 165
medicine and technology, Applications of CR-39 nuclear track detector in 266
medicine, Neutrons in 233

Neutron, The (*E*) 231
neutrons in engineering and technology, Uses of 239
Neutrons in medicine 233
Nondestructive Testing, NDT '81: 20th ann. conf. of British Institute of (*C*) 29
nuclear track detector in medicine and technology, Applications of CR-39 266

optical design, The use of computers in 210

phototypesetting and colour scanning, Photographic emulsions, 159
physiology, Physics in 43 (*E*), 44, 50, 57, 66, 70
physiology, The role of physics in (*E*) 43
physiotherapy, The physics of radiations used in 57
policies for major hazards, Risk analysis and public 258
policies towards the telecommunications and computer industries, Government 105
pollution control, The use of tracers in water 3
polymer processing, The importance of heat transfer in 91
polymers, Developments in the impact testing of 152
Prestel, The marketing of 114

radiations used in physiotherapy, The physics of 57
radioactive wastes, The management of 112
research, The commercialisation of university 249
Risk analysis and public policies for major hazards 258

Solar electricity – a low power technology 190
speech synthesis, Electronic 146
systems, Int. conf. on man–machine (*C*) 224

technology, Applications of CR-39 nuclear track detector in medicine and 266
technology, Uses of neutrons in engineering and 239
telecommunications and computer industries, Government policies towards the 105
Telescopes and auxiliary instruments for the La Palma observatory (*C*) 123
tracers in water pollution control, The use of 3

Vacuum '82 (*C*) 168

Authors (with article title)

(E) denotes editorial, (L) denotes letter

Baker M J and Witcher B: The marketing of Prestel 114
Bischke R K: see Boom R W
Black M M, van Noort R and Drury P J: Medical applications of biomaterials 50
Boom R W and Bischke R F: Inductor–converter superconductive magnetic energy storage for electric utility usage 18

Diffey B L and Docker M F: The physics of radiations used in physiotherapy 57
Docker M F: see Diffey B L
Drury P J: see Black M M

Eason K D: Human factors in information technology 196
Edwards M F and Ellis D I: The importance of heat transfer in polymer processing 91
Ellis D I: see Edwards M F
Evans G V: The use of tracers in water pollution control 3

Ford J G and Georghiou L G: Marine technologies for the 1990s 11

Georghiou L G: see Ford J G
Greatorex C A: Instrumentation for the measurement of blood flow 44
Griffiths R: see Irwin A

Haines A B: The contribution of aerodynamics to advances in transport aircraft design 273
Harris L B: Solar electricity – a low power technology 190
Henshaw D L: Applications of CR-39 nuclear track detector in medicine and technology 266
Hills J: Government policies towards the telecommunications and computer industries 105
Hodgkinson J M and Williams J G: Developments in the impact testing of polymers 152
Horne D F: Photographic emulsions, phototypesetting and colour scanning 159

Hull D: Research on composite materials at Liverpool University part 1 183

Irwin A, Smith D and Griffiths R: Risk analysis and public policies for major hazards 258

Jason A C: see Kent M

Kent M and Jason A C: Physics, fish and food 202
Kirkham A J: The use of computers in optical design 210

Lawson R C and Lenihan J M A: Neutrons in medicine 233
Lenihan J M A: see Lawson R C
Linggard R: Electronic speech synthesis 146
Lodge R M: The management of radioactive wastes (L) 112

McGeehin P: Composite materials in transportation 135

van Noort R: see Black M M

Parker R P: Medical imaging 70
Parker R P: The role of physics in physiology (E) 43

Rabenhorst D W: The all-mechanical electric car 98
Rothwell R: The commercialisation of university research 249

Sharp J V: Inspection, maintenance and repair of North Sea platforms 139
Smith D: see Irwin A
Spring K: The neutron (E) 231

Wade B: The management of radioactive wastes (L) 112
Walker J: Uses of neutrons in engineering and technology 239
Weale R A: Image perception – a key to the brain 66
Williams J G: see Hodgkinson J M
Witcher B: see Baker M J

Phys. Technol., Vol. 13, 1982. Printed in Northern Ireland

Conferences reported (by date)

8–9 September 1981	Light measurement '81	28
10 September 1981	Telescopes and auxiliary instruments for the La Palma observatory	123
14–16 September1981	NDT '81: 26th ann. conf. of the British Institute of Nondestructive Testing	29
16–18 September 1981	Eurodisplay '81: 1st European display research conf.	30
22–23 September 1981	Laser safety	31
26–30 October 1981	Optical Society of America ann. mtg	32
28 October 1981	Electronics update '81	80
9–11 November 1981	1st conf. on fibre optic gyroscopes and related technologies	79
11 November 1981	What kind of physicist does industry need?	78
19 November 1981	Advanced composites: application, economics and developments	124
17 December 1981	New magnetic materials in industrial applications	125
23 February 1982	Lasers in manufacturing	166
17–18 March 1982	Technology in the 1990s: the sea	167
23–25 March 1982	Electro-optics and laser international '82 UK	223
29–31 March 1982	Vacuum '82	168
31 March 1982	The use of fracture mechanics in design	165
24–28 May 1982	9th IMEKO World Congress: Technological advances in measurement	222
6–9 July 1982	Int. conf. on man–machine systems	224
